

Accessories to Descaling Nozzles

Descaling check valve

► Features

- Compact design
- High impact force
- High durability
- Less maintenance cost

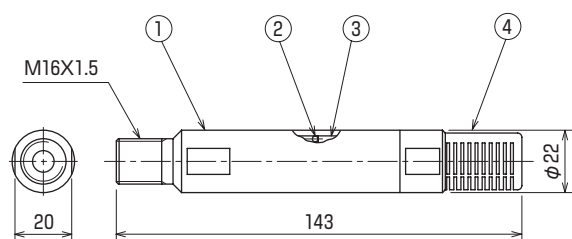

► Effects

- Prevention of water hammering.
- Prevention of drips of bypass water.
- Prevention of temperature fall in steel sheet caused by bypass water.
- Idle time with less productivity improved.

► Materials

- Stainless steel

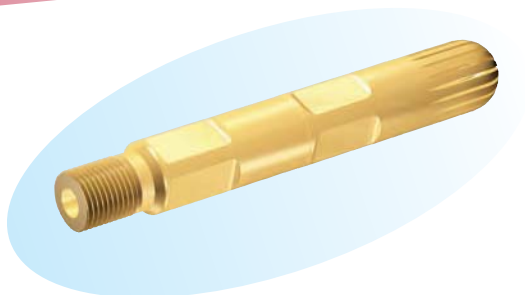

Shapes and dimensions

No.	Part name
①	Cylinder
②	Spring
③	Piston
④	Filter

Weight (g)	250
------------	-----

Long filter

► Features

- High impact force
- High durability
- Prevention of clogging

► Effects

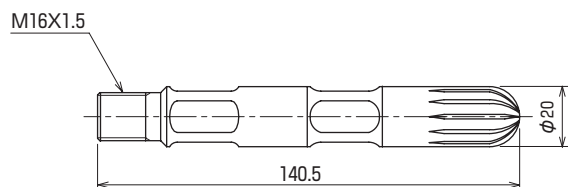

- Impact force 1.2 times that of common filters.
- Prevention of clogging of nozzle.

► Materials

- Filter for DNH, DNR: brass
- Filter for DNK, DNM: stainless steel

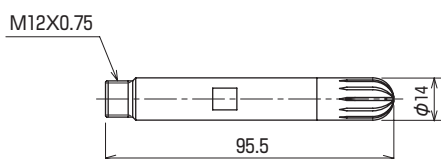

Shapes and dimensions

- Filter for DNH, DNR, DNK

	Material	Weight (g)
Filter for DNH, DNR	Brass	215
Filter for DNK	Stainless steel	205

- Filter for DNM

Material	Weight (g)
Stainless steel	75
